

AC COLLECTION · BALI · PREPARED FOR PALM SPRING VILLA

Everything your villa needs to sell *more nights*.

Palm Spring Villa meets the criteria to join my portfolio of villas in Bali. Here is what I can do for you: I become the only one marketing your villa, and I bring you the bookings. Listed under my Superhost profile, it starts with the trust of 795 reviews instead of starting from zero, which is what fills a calendar quickly. Your villa manager and your staff stay exactly the same. No set-up fee, no subscription.

VILLAS IN BALI

Your villa goes live on this profile: guests book it with the confidence of 795 reviews from day one.

WHAT I DO FOR YOU

Everything included, *from day one.*

Every line below is included the day your villa goes live. The crossed-out prices are what each one costs on its own.

01	Exclusive distribution under my profile I am the only one marketing your villa: listed on my Airbnb profile (Superhost, 795 reviews, 4.8★, 10 years of hosting), then Booking.com, Expedia, VRBO and Marriott Homes & Villas. A villa that goes live on a profile guests already trust books faster than a listing starting from zero. My own playbook, a nightly pricing strategy set together with you, one calendar, no double bookings.	 INCLUDED
02	Your direct-booking site A site for your villa on your own domain: scroll film, gallery, enquiry button. No OTA commission on the bookings it brings you.	\$690 + \$29/mo INCLUDED
03	Highlight on ac-collection.com Featured on my guest site and in my guest emails: repeat guests, groups and retreats looking for large villas.	\$29/mo INCLUDED
04	Monthly report + market insights On the 1st of every month: channel mix, occupancy, ADR, PriceLabs market data and my pricing recommendations.	\$19.99/mo INCLUDED
05	PriceLabs strategy tool The dynamic-pricing engine behind my own villas, running on yours: seasonality, events, lead time, minimum stays.	\$15/mo INCLUDED
06	Guest app Digital guidebook and concierge chat for every guest I send: check-in, house manual, local recommendations.	\$39/mo INCLUDED
07	Instagram reel of the villa Shot from your photos, published on @acpartners.collection.	\$290 INCLUDED
08	Pricing set-up + listing audit PriceLabs configured for your villa; photos, title and text reviewed in the first week.	\$290 INCLUDED

LIFETIME

12%

on the nights I sell. Nothing else.

- Nothing on the nights you sell yourself
- No set-up fee, no minimum term
- Stop whenever you want

HOW IT WORKS

Live within *a week.*

01

Onboarding

I write and photograph the listing to convert, map every amenity, set up one calendar across all channels and set pricing with you.

02

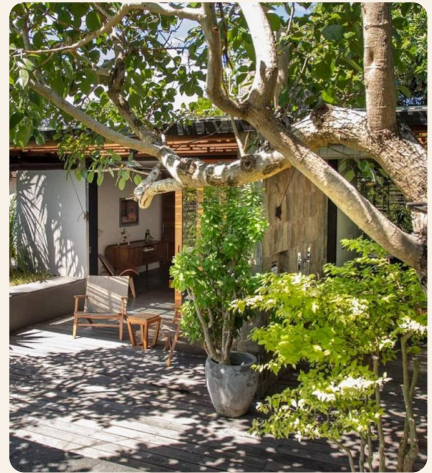

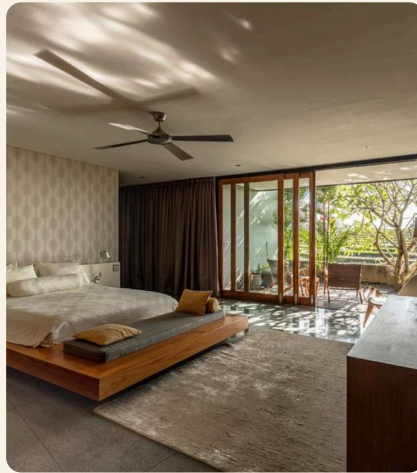

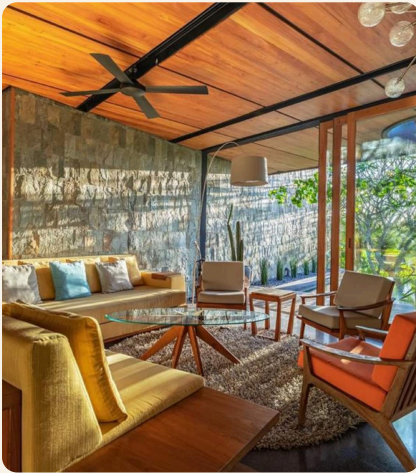

Go live

Your villa goes live under my Superhost profile on Airbnb, then Booking.com and every other channel, with your direct-booking site and the AC Collection highlight, all on the same day.

03

Every month

I bring the bookings, your team hosts the guests as today, and every booking goes straight to you. On the 1st, your report: channel mix, occupancy, rates, market data and my pricing recommendations.

My guarantee

If I have not brought you bookings within the first three months, you keep the site, the highlight and the reel, and walk away. Nothing owed.

You keep

- Your operations team: villa manager and staff stay the same
- Your direct guests
- Your rate floor, and your own stays blocked whenever you want
- Every booking, paid to you

I need

- Your photos
- House rules and check-in details
- Your net rates or rate floor per season
