

AC COLLECTION · BALI · PREPARED FOR PALM SPRING VILLA

Everything your villa needs to sell *more nights*.

Palm Spring Villa meets the criteria to join my portfolio of villas in Bali. Here is what I can do for you: I take care of distribution and bring you bookings, on more channels and with sharper pricing, in parallel with what you already do. Your villa manager and your staff stay exactly the same. No set-up fee, no subscription, no exclusivity.

VILLAS IN BALI

WHAT I DO FOR YOU

Everything included, *from day one.*

Every line below is included the day your villa goes live. The crossed-out prices are what each one costs on its own.

01	Distribution on every OTA, in parallel with yours My own listings on Airbnb (Superhost, 10 years of hosting), Booking.com, Expedia, VRBO and Marriott Homes & Villas run alongside your channels, so your villa takes more of the market instead of moving it around. My own playbook, a nightly pricing strategy set together with you, one synced calendar, no double bookings.	 INCLUDED
02	Your direct-booking site A site for your villa on your own domain: scroll film, gallery, enquiry button. No OTA commission on the bookings it brings you.	\$690 + \$29/mo INCLUDED
03	Highlight on ac-collection.com Featured on my guest site and in my guest emails: repeat guests, groups and retreats looking for large villas.	\$29/mo INCLUDED
04	Monthly report + market insights On the 1st of every month: channel mix, occupancy, ADR, PriceLabs market data and my pricing recommendations.	\$19.99/mo INCLUDED
05	PriceLabs strategy tool The dynamic-pricing engine behind my own villas, running on yours: seasonality, events, lead time, minimum stays.	\$15/mo INCLUDED
06	Guest app Digital guidebook and concierge chat for every guest I send: check-in, house manual, local recommendations.	\$39/mo INCLUDED
07	Instagram reel of the villa Shot from your photos, published on @acpartners.collection.	\$290 INCLUDED
08	Pricing set-up + listing audit PriceLabs configured for your villa; photos, title and text reviewed in the first week.	\$290 INCLUDED

Value of what is included in year one

\$2,854

12%

on the nights I sell. Nothing else.

- Nothing on the nights you sell yourself
- No set-up fee, no exclusivity, no minimum term
- Stop whenever you want

HOW IT WORKS

Live within *a week.*

01

Diagnostic

I read your calendar and the market, and show you, in figures, the nights your villa leaves empty and what they are worth.

02

Onboarding

I write and photograph the listing to convert, map the amenities, sync your calendar by iCal so a night can never be sold twice, and set pricing with you.

03

Go live

Airbnb, Booking.com and the other channels in parallel with yours, your direct-booking site and the AC Collection highlight, all on the same day.

04

Every month

I bring the bookings, your team hosts the guests as today, and every booking goes straight to you. On the 1st, your report: channel mix, occupancy, rates, market data and my pricing recommendations.

My guarantee

If I have not sold half of the empty nights shown in your diagnostic within the first three months, you keep the site, the highlight and the reel, and walk away. Nothing owed.

You keep

- Your operations team: villa manager and staff stay the same
- Your own listings, channels and direct guests
- Full control of your calendar and your rate floor
- Every booking, paid to you

I need

- Your iCal link and your photos
- House rules and check-in details
- Your net rates or rate floor per season

Fifteen minutes on WhatsApp to walk you through the numbers for Palm Spring Villa.
